Job Role
UI UX Designer

Your responsibilities will include:

- Creating user-centered designs by understanding business requirements, and user feedback
- Creating user flows, wireframes, prototypes and mockups
- Translating requirements into style guides, design systems, design patterns and attractive user interfaces
- Designing UI elements such as input controls, navigational components and informational components
- Creating original graphic designs (e.g. images, sketches and tables)
- Identifying and troubleshooting UX problems (e.g. responsiveness)
- Collaborating effectively with product, engineering, and management teams
- Incorporating customer feedback, usage metrics, and usability findings into design in order to enhance user experience
